INFORMATION SYSTEM
4. Catalog Materials
 - a. Associated Documents
 - b. Core Catalog Materials

1. INTRODUCTION:

The documentation for this data set was originally on paper, kept in NSSDC's Data Set Catalogs (DSCs). The paper documentation in the Data Set Catalogs have been made into digital images, and then collected into a single PDF file for each Data Set Catalog. The inventory information in these DSCs is current as of July 1, 2004. This inventory information is now no longer maintained in the DSCs, but is now managed in the inventory part of the NSSDC information system. The information existing in the DSCs is now not needed for locating the data files, but we did not remove that inventory information.

The offline tape datasets have now been migrated from the original magnetic tape to Archival Information Packages (AIP's).

A prior restoration may have been done on data sets, if a requestor of this data set has questions; they should send an inquiry to the request office to see if additional information exists.

2. ERRATA/CHANGE LOG:

NOTE: Changes are made in a text box, and will show up that way when displayed on screen with a PDF reader.

When printing, special settings may be required to make the text box appear on the printed output.

EXTENDED WORLD MAPS

65-098A-000

This data set has been restored. There were originally 92 7-track, 556 BPI tapes written in Binary. D08837 was a bad tape. There are ten restored tapes. Some of the time spans are not in sequential order. The DR tapes are 3480 cartridges and the DS tapes are 9-track, 6250 BPI. The tapes were created on a 7094 computer. The DR and DS numbers along with the corresponding D numbers and the time spans are as follows:

DR#	DS#	D#	FILES	TIME SPAN
DR03930	DS03930	D06316	1	08/06/67 - 08/13/67

ALOUETTE II EXTENDED WORLD MAPS

This data set consists of ~~4~~ 536 BPI, Binary, 7-track tapes made on the IBM-7094. Each tape has one file on it. The end-of-file can be recognized by the multiple use of the number 200777777776. The tapes in this data set were made from the originals because the originals did not have EOF's on them. The originals were returned to the experimenter.
